Professional Summary

Computer Science Engineering student with strong foundations in Java, Python, SQL, and full-stack development. Experienced in building web and database-driven applications through academic and internship projects. Skilled in problem-solving, software development, and API integration with a keen interest in scalable systems, artificial intelligence, and modern technologies.

Education

B.Tech in Computer Science and Information Technology

C. V. Raman Global University, Bhubaneswar

Aug 2023 – May 2027

CGPA: 8.29 / 10.0

Senior Secondary (CBSE - Class XII)

Oxford Public School, Ranchi

2020 – 2022

Percentage: 65%

Technical Skills

Languages: Java, Python, JavaScript, PHP, SQL

Web Technologies: HTML5, CSS3, Bootstrap, RESTful APIs

Libraries & Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Tkinter

Databases: MySQL, Relational Database Design, Normalized Schema

Tools & Platforms: GitHub, VS Code, Google Cloud Platform

Concepts: OOP, DSA, Machine Learning, Database Management System, Computer Organization, Artificial Intelligence and Machine Learning

Experience

Web Development Intern – ApexPlanet Software Pvt. Ltd.

May 2026 – Jun 2026

- Worked on web development projects using HTML, CSS, and JavaScript.
- Built responsive front-end web pages using HTML, CSS, and JavaScript, improving website usability and user interaction across multiple screen sizes.
- Improved interactive web pages and strengthened understanding of modern web technologies.
- Collaborated on project-based tasks in a dynamic internship environment.

Artificial Intelligence Intern – Pinnacle Labs

May 2026 – Jun 2026

- Worked on AI-based applications including Resume Parser, Translator App, Teachable Machine, and Autocorrect Tool.
- Explored machine learning and NLP concepts by working on AI-based applications such as Resume Parser for intelligent data processing.
- Developed an understanding of AI-driven automation and real-time data processing.
- Strengthened problem-solving and project development skills through practical assignments.

Projects

MoviezWiki - Global Movie Insight Portal — [GitHub](#)

Aug 2025 – Nov 2025

PHP, MySQL, HTML5, Bootstrap, REST API, Gemini AI

- Built a full-stack movie insight platform with separate front-end and back-end architecture.
- Integrated live movie data and posters using the TMDB API.
- Incorporated Gemini AI to generate automatic movie summaries.
- Implemented user authentication and an admin dashboard for secure data management.

Weather Application — [GitHub](#)

Aug 2025 – Sep 2025

Kotlin, Android Studio, OpenWeather API, XML, JSON Parsing

- Developed a native Android application using Kotlin.
- Implemented real-time weather data retrieval for up-to-date information.
- Integrated external APIs to fetch live weather data.
- Applied API requests and JSON parsing to process weather data based on user-entered city names.

Certifications

- Google Cloud Career Launchpad – Generative AI Leader Track (Google Cloud) Mar 2026
- Java Full Stack Developer Certification – Seeding Minds Apr 2026
- Google UX Design Professional Certificate – Coursera & Google Sep 2025
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle Oct 2025
- Innovation by Design – NPTEL (IIT Madras) Jan 2025
- Foundations of Prompt Engineering – AWS Training & Certification May 2026
